

Application Requirements:

We are pleased to announce that we are offering a 4<sup>th</sup> year fellowship in Noninvasive Cardiac Imaging for the academic year 2022-2023. **We will be accepting applications until August 31<sup>st</sup>, 2021.**

1. Cover letter to include the following:
  - a. Your current position and experiences to date in echocardiography, including relevant imaging related research or QI projects.
  - b. State your specific interests in Echocardiography and how a fourth year of advanced imaging training would impact your short and mid-term career goals.
  - c. Include specific clinical skills you are interested in obtaining and how these would be applied in your first faculty position.
  - d. Include other areas of training such as MRI or fetal that you are interested in obtaining.
  - e. A brief proposal (1 paragraph or less) for an echo related research project that can be performed during the 4th year with plans to submit an abstract to ASE scientific sessions in June of 4th year.
2. Updated CV
3. Letters of Recommendations:
  - a. 2-3 letters of recommendation are required
  - b. This should include a letter from your cardiology fellowship program director and at least one imaging faculty member from your training institution.
4. Transcripts from pediatric cardiology fellowship rotations for at least first 2 years.
5. An official copy of certified USMLE scores.

Once all application materials submitted to CHOP Fellowship Administrative Coordinator, please confirm with separate email to Dr. Michael Quartermain.
