If you are a Pennsylvania resident with a child under age 18:

Families that already have insurance coverage may be eligible for Medical Assistance as a secondary insurance provider. Medical assistance can assist with copays and medication costs not otherwise covered by your insurance.

This program is not income-based.

Eligibility is based on having a child under 18 with a qualified medical condition (such as IBD).

For assistance applying, call CHOP's Family Health Coverage Program at 800-974-2125.

If you have questions or need further assistance, please contact Muzna Gulamali, IBD social worker, at 267-426-9589.
