

The Children's Hospital *of* Philadelphia[®] *A pediatric healthcare network*

Documenting your conversations with insurance companies and our billing office is the key to effectively managing your financial paperwork.

We recommend that each time you have one of these conversations, you take a moment to log it on these pages. It will come in handy whenever you have to advocate for your child. If you photocopy this log sheet before you use it, you will have a supply for your future needs.
